Epicurve of Ebola Cases in Liberia, by Epiweek (n=2171)

- Suspected
- Probable
- Confirmed

Epidemiological Week of Onset

Number of Cases
Please note difference in scales in the number of cases.
In previous outbreaks, more females observed than males, so this finding should be further explored.

Ebola Cumulative Incidence by Sex as of September 20 (n=3331), Liberia 2014

- Male: 9.14 cases/10,000 population
- Female: 8.14 cases/10,000 population

*National: 8.88 cases/10,000 population*

HIGHLIGHTS

NIMBA COUNTY

• Two new deaths of health care workers (Saclepea and Ganta)

• Five (5) of the eight (8) cases referred to ETU died upon arrival

Issues & Constraints

• Deplorable road condition is posing challenges to the transfer of cases from JFD Hospital in Tapitta
HIGHLIGHTS

Bomi County

• Two EVD survivors, managed in the holding unit, were reunited with their families
• One Clan Level Meeting was held in Senjeh District
• A probable body was buried in Tubmanburg
• 21 patients currently in the holding center
HIGHLIGHTS

LOFA COUNTY

• Total number of patients in Foya Case Management Center (FCMC) – 31
• Total new cases - 4
• Total number of deaths - 5
HIGHLIGHTS

Sinoe County

• 42 members of the Ebola response team were trained

• 42 pairs of rainboots were provided to the Ebola response team

• A TOR was developed for the Response team and community taskforce

• District Ebola taskforce were established in three districts (Jedepo, Jeadea and Dugbe River) by the county authorities
HIGHLIGHTS

Grand Kru County

• The CHSWT and partners have drawn a plan for health facility based training of health workers
• The selection of a site for the county holding unit is still pending
• UNIMIL donated assorted supplies to the county Ebola Response Team

Issues & Challenges

• Bad road condition is preventing the delivery of the food items provided by the WFP
• Restricting the movement of quarantine individuals is difficult
• The county Lacks a functional ambulance
• Poor GSM network connectivity
HIGHLIGHTS

Margibi County

• Twenty one (21) cases of EVD were transferred to the Island Clinic ETU
  – 15 from Lower Margibi
  – 11 From upper Margibi
HIGHLIGHTS

BONG COUNTY

• 3 new cases reported (1 suspected, 2 probable)
  – 1 suspected death
Highlights

Montserrado

- 2840 of 2909 contacts under follow up were seen by contact tracing teams
- Of the 2909 contacts being followed, 3 became symptomatic today.
- Of the 2909 contacts being followed, 165 completed days, and 3 lost to follow-up
- Total deaths – 35 deaths (24 ETUs) and 11 from communities
- The National Empowerment Program (NEP) for women and children carried out house to house interpersonal communication to 61 families and 36 household in the PO River Community
- 4 training sites have been selected in St. Paul District to host the training of 100 gCHVs
Lab Results

National Reference Lab at LIBR

80 specimens collected

– 51 positive
– 24 negative
– 5 indeterminate
